

5 Environmental Information

Environmental Performance: Exelon believes clean, affordable energy is the key to a brighter more sustainable future. Our commitment to sustainability is at the heart of everything we do. Learn more about our practices by reviewing our Sustainability Report. Exelon provides reliable, clean, affordable and innovative energy products. Because operational excellence and environmental stewardship are among our values, we conduct business in a way that is sustainable for our employees, customers and the communities in which they work and live. We measure our own sustainability goals, performance and impacts and report it transparently - using the Global Reporting Initiative G4 Sustainability Reporting Framework. It's the world's most widely used, comprehensive, independent, sustainability reporting standard. Exelon is interested in working with suppliers who share our commitment by taking steps to address their own environmental performance and by offering Exelon innovative solutions and products that will help us reduce our environmental footprint. Bidder's proposal will be evaluated with appropriate consideration given to the extent to which the facility/division/company involved in completing this scope of work can demonstrate: (a) a track record of strong compliance with environmental laws and regulations; (b) a commitment to continuous improvement efforts to improve your own environmental performance; and (c) opportunities where Bidder can provide Exelon materials/products to improve our environmental performance. To the extent information is available, please provide responses to the questions in this section based on one of the following, listed in preferred sequence: (1) For Bidder's specific facility(ies) involved in
